SECTION 8-D
NON-COMPATIBLE CONNECTIONS: HARNESS / ROPE GRABS / CONNECTORS

HARNESS:
1. Do not tie a lifeline or lanyard to the harness D-ring as shown in Fig. 1. Always use a snap hook or carabiner.
2. Do not connect more than one lanyard or absorber to a harness D-ring as shown in Fig. 2.

ROPE GRABS:
1. Do not attach a rope grab device directly to the back or front D-ring of a harness as shown in Fig. 3. When using a work positioning type harness, the rope grab may be attached to a side mounted D-ring when there is no exposure to a free fall.

CONNECTORS:
1. Do not attach a snap hook to a rope grab as shown in Fig. 6.
2. Do not link connectors together. Fig. 7-A, 7-B and 7-C
