

# MAX Force™ Energy Absorbers

## Product Identification (PID) Labels

Product Identification labels comply with OSHA and ANSI requirements, are durable easy to read English and Spanish text with all the critical information required for use.

## Fall Indicator Warning

The absorber PVC cover is designed to hold the backer and tear webbing together during use. If the cover is removed by abuse or a free fall, the fall indicator label will be exposed, warning the user to remove the absorber from service.
