

Welcome To The Best In Fall Arrest

OVERVIEW

Super Anchor Safety is a leader in residential Fall Protection providing solutions for all industry trades. Falls from elevated areas are one of the leading causes of serious injury and death during and after construction. This is especially true in the residential construction and roofing industry. Super Anchor Safety has been providing fall protection solutions for over two decades. Our key personnel work closely with builders, architects and engineers to provide innovative, cost-effective products that are easy to install and use. Our customers also benefit from our 40+ years experience as a residential and commercial contractor.
