

Commercial Anchors • CRA-PT

Pass Through System

PT anchor horizontal lifelines do not require any mechanical parts and are the most economical horizontal lifeline system on the market. The top fixture design allows a connector ring to be moved from one side of a PT top to the other side as shown here.

Standard CRA with loop top fixture

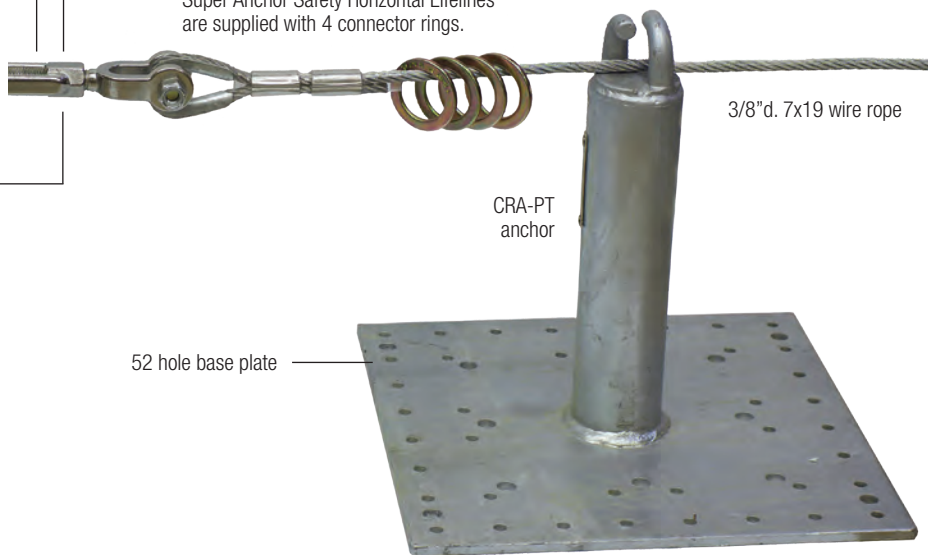

CRA-4 with 4-Way fixture

CRZ Z-purlin with loop top fixture

Horizontal Lifeline End Anchor Options

Super Anchor Safety Horizontal Lifelines are supplied with 4 connector rings.

3/8" d. 7x19 wire rope

CRA-PT anchor

52 hole base plate
