

Fall Arrester™ Lifelines

Value FA Fall Arrester™ Lifelines

A unique design that combines the lifeline with an energy absorber reducing the component bulk that normally attaches to the full body harness dorsal D-ring. These Fall Arresters are manufactured at our Monroe, WA factory and are supplied in two models with optional lifeline materials. Custom lengths are available upon request. All components comply with ANSI Z359.1-07 and OSHA 1926.502.

Complete System No. 5502

Lifeline No. 5503
