

Super Anchor Safety is a major manufacturer of residential and commercial personal fall protection equipment. With over 35 years of roofing contracting and 25 years of PPE manufacturing, SAS is recognized as an industry leader with thousands of distribution points across the USA and Canada. Our expert sales personnel and design team work closely with builders, architects and engineers to provide practical, innovative and cost effective solutions for fall protection. SAS maintains an extensive inventory of 3rd party certified and engineered commercial anchors including pre-manufactured components that can be assembled into custom designs and shipped on short notice.
