

# SAS Commercial Anchor Division

## Commercial Roof Anchors

Established in 1992, Super Anchor Safety continues to develop high quality cost effective commercial anchor designs with special features not offered by others. Our expert design and sales team work closely with architects, engineers and our dealer network to supply pre-engineered or custom fall protection anchors. Backed by an extensive inventory of finished goods and pre-manufactured components, these anchors typically ship with minimal lead times. These anchors are certified by a 3rd party for quality manufacturing, design and performance.

## Compliance

Compliance to US and Canadian industrial safety standards is your assurance that SAS anchors will perform as specified. We provide documented 3rd party engineering and lab reports on request.

### Compliance Standards

ANSI Z359.18-17 Type A/T

Intertek Lab reports CRA, CRO, D-Plate anchors

IWCA.1-14.1 Window Washing standard

CAL-OSHA Title 8 CRO anchor designs

OSHA 1926.502 / 1910.140

## Specifications

- Single person PPE, Window Washing and Horizontal Lifeline Systems
- Imported or 100% USA mfg. steel components A-36, Q235, 304sst and 316sst
- High strength single piece cast steel loop tops w/stamp marks. Q235, Q345 and 316sst.
- Foam Filled Risers
- SST Threaded vent hole plugs
- Wide range of attachment specifications

## Architects and Design:

- BIMsmith Revit and AutoCAD Library
- Full MasterSpec Specification for CRA Anchors
- MasterSpec 118129 Facilities Fall Protection
- CRA Project Starter for Design Professionals
- BIM, AutoCAD, and DWG Files

### CRA-Models

Min. 10,000lb Loop Top  
Tensile Strength

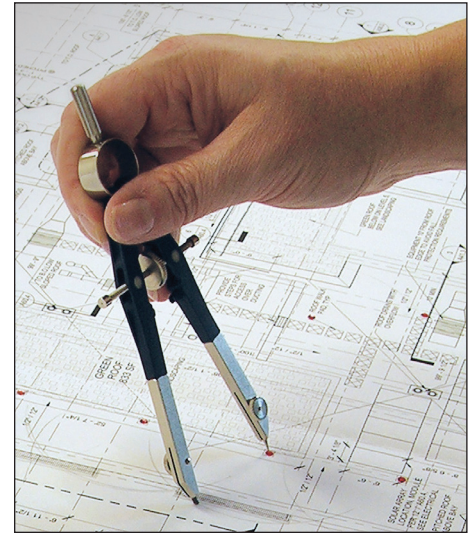

Permanent  
Stamp  
Marks

Threaded  
SST Vent  
Hole Plug

### CRO-CAL-OSHA

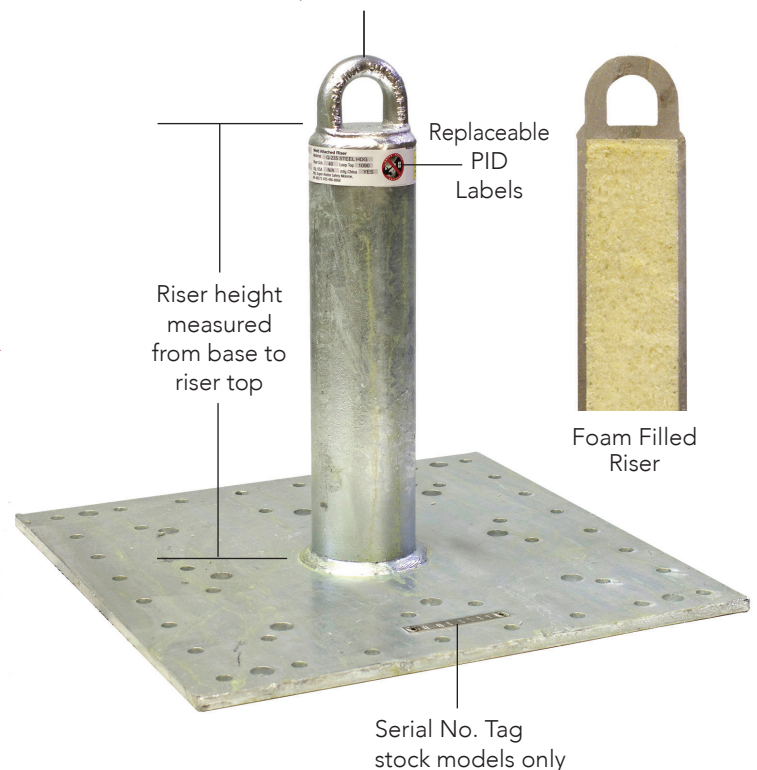

Min. 20,000lb Loop Top  
Tensile Strength

## Custom Services:

- Anchor location plan service
- Horizontal Lifeline pre-engineered and custom designs
- Project specific 3rd party structural engineering
- English/Spanish competent person training classes.
