## FALL PROTECTION EQUIPMENT

The Best in Fall Arrest

April 29, 2022

Re: Price Increase Effective July 1<sup>st</sup>, 2022

Dear Valued Super Anchor Customers:

The volatile global supply chain situation continues with manufacturing cost increases in raw materials, packaging, and freight. After maintaining our pricing for the last year and a half, we will be increasing prices an average of 5-8%. This letter serves as a 60-day notice regarding the price increase that will go into effect on July 1<sup>st</sup>, 2022. The container surcharge of 5% will remain in effect as this cost was not built into the price increase avoiding markup on the increased shipping cost.

We will be sending out the new price list via e-mail to give you the necessary time to adjust pricing. Your sales representative will assist in providing you with the new pricelist. If you have not received the updated pricelist, please reach out to your assigned sales representative or myself.

We know that these times are unprecedented and it has had a global effect on everything, please be assured we are monitoring the situation and are here to help and support you, our valued customer. Super Anchor Safety greatly appreciates your business and we look forward to supplying all your fall protection safety needs.

Please feel free to reach out to me directly with any questions or concerns at (425)508-8685.

Sincerely,

*Paul Lagerstedt*
