Sewn and Riveted Construction

Retail Package

No.6452 2 Pouch Bag

No.6453 3 Pouch Bag

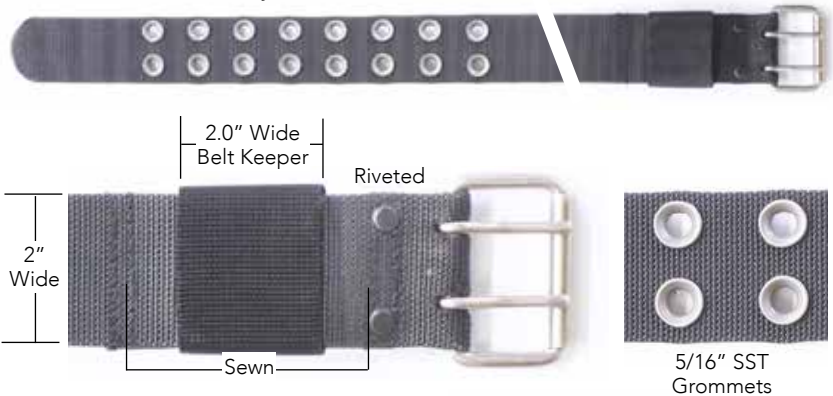

No.6405 Utility Belt

The number 1 complaint we hear about tool bag belts is they are too thin and the grommets fall out. Our All-Pakka™ utility belt is mfg. with 2" wide extra thick webbing w/sst commercial grade grommets that are specifically designed to stay in place. The SST twin leg tongue buckle provides the strength and stability to hold heavily loaded tool bags in place. You won't find a higher quality more durable utility belt.

No.6405 Utility Belt

16 Grommet Adjustment

Features

- 2" wide heavy duty polypro webbing w/2" length belt keeper
- 5/16" commercial grade stainless steel grommets
- Stainless steel tongue buckle
- Riveted and sewn construction
- Retail package
