

Anchors • RS-20 Series

RS-20

Our most versatile RS anchor that is installed at or below the ridge. Includes 7" butyl strips and 3" spiral shank sst nails. The leg is easily formed for all types of tile roof profiles. Stainless steel models are ideal for salt air exposure. Dacromet coating accepts paint better than stainless. The W-model is designed specifically for vertical wall installation. Includes English/Spanish instruction manuals

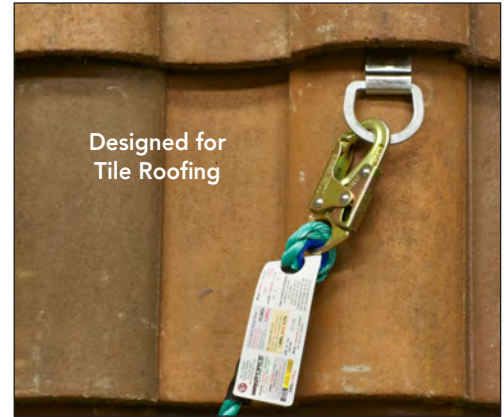

Compliance: ANSI Z359.1 / OSHA 1926.502 **Canada Export :** Certified by a member of l'Ordre des ingénieurs du Québec
