

# Max-X™ X-Line Fall Protection Kit

No. 6069 Value Harness

Back View

## X-line + Pneumatic Air Line with ADP Fall Arrester

No. 4078

A complete fall protection kit that features our patented X-Line lifeline with integral pneumatic air line. The two component integration reduces tripping hazards by eliminating the need for a separate air line. Ideal for roofers, framers, siders and other trades that require fall protection and use air driven tools. Includes ADP panic grab fall arrester with single locking direction. Open gate type easily removes from the lifeline

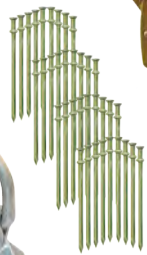

### Features:

- No. 6069 Value 5 point full body Harness with Hi-Viz webbing, Belan buckles and elastic webbing keeper
- No. 6181 Energy Absorber with 2 snap hooks 900lb max arrest force, 42" deployment
- No.4015-Z zinc plated ADP fall arrester
- X-Line 12 Strand poly-dac with snap hook and aluminum swage
  - 1/4" reinforced polyester air line with 1/2" NPT brass reusable fittings and bend restrictors
  - 6ft and 4 ft air line leads.
  - 3,600lb gate strength connectors
- Serial numbered components
- English/Spanish instruction and inspection labels
- 5 Gallon plastic bucket instruction and labels
