

X-Line™ Fall Protection Lifelines

X-Line Pneumatic Lifeline System

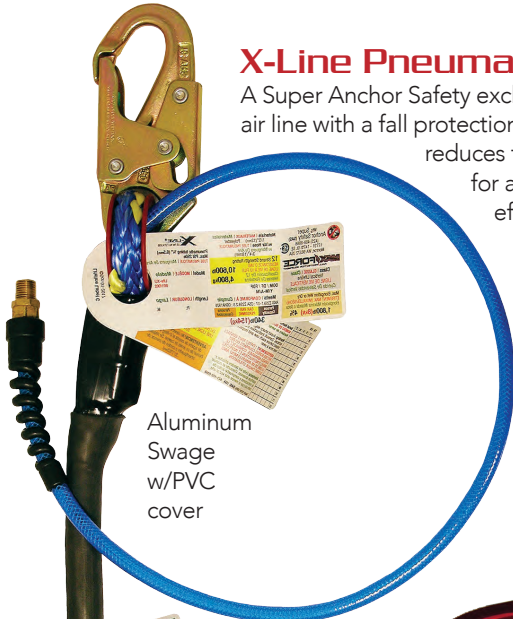

A Super Anchor Safety exclusive design that combines a pneumatic air line with a fall protection lifeline. The two component integration reduces tripping hazards by eliminating the need for a separate air line and improves worker efficiency. Ideal for construction trades using air guns and air powered tools. Supplied in a 5 gallon plastic bucket with English/Spanish labeling and instruction manual. Available in two standard rope lengths. Sold with or without rope grabs.

Rope Grab Kit Options/ Compliance:
 Fall Arrester No. 4015-Z complies with ANSI Z359.1-07 SuperGrab No. 4015-Z 3rd party Canadian engineering certification. SuperGrab No. 4015-Z OSHA, CAL-OSHA and WISHA compliance letters

Features:

- 12 Strand poly-dac lifeline with aluminum mechanical swage
- 3,600lb gate strength snap hook
- Aluminum auto-lock carabiner
- 10,600lb min. tensile strength
- 1/4" reinforced polyester air line with brass reusable fittings and bend restrictors
- Serial numbered
- Instruction and inspection labels
