

Maxima™ Fall Protection Lifelines

Aluminum Swage with PVC cover

Maxima Lifeline

The Maxima Lifeline is our most economical lifeline and an industry standard for bucket kits. This lifeline is manufactured using a 5/8" 3-strand co-polymer rope which resists abrasion and water absorption. Supplied with a 3,600lb gate strength snap hook and terminated with an aluminum swage that will not unravel. Available in five standard rope lengths with or without rope grabs. Custom length options available.

Specifications:

- 5/8" (16mm) 3-strand co-polymer
- 10,582lb min. tensile strength
- 1 person maximum user wt. 340lb
- Maximum elongation wet or dry 8.2%@1800lb
- Compatible with all Super Anchor Safety rope grabs and fall arresters
- Complies with ANSI-Z359.1-07 and OSHA 1926.502
