"B" end

SuperGrab and ValueGrab The advantage of the Prussic design:

- "Omni-directional" locks in any direction when a force is applied
- Is adjustable as the rope diameter grows with age
- Non-mechanical has no moving parts and does not corrode
- Cordage construction is less prone to snagging and wont scratch metal panels
- Exceeds mechanical rope grabs in strength and reduced deceleration

Lifeline Compatibility

Lifeline	4015-Z	4015-M	4015	4015-V
Maxima/Deluxe/Value	Yes	Yes	Yes	Yes
X-Line	Yes	No	Yes	No
