3.0”od. Custom Anchors

Custom anchors and field weld risers are based on standard anchor designs with customer specified variations and are project specific. 3rd party structural engineering and non-standard anchor designs are available.

Ordering Information

Anchor designs/specifications are submitted to SAS sales team. A custom anchor worksheet is drafted and submitted for customers review. Upon customer approval and worksheet sign off, our sales team will provide unit pricing and lead time. All 3rd party engineering is billed separately.

Specification Options

- Material type and finish
- Riser height
- Base plate dimensions
- Bolt hole sizes and locations
- Top fixture type and orientation
- 3rd party engineering available

Model Types

No.1031-X CRA
